Agenda 2 To consider and approve the delisting of the Company's securities from the SET

The Chairman reported to the Meeting that, according to the facts and reasons given in the invitation letter to the shareholders which could be summarized as follows.

The Company received a Letter of Intent dated 2 October 2019 from Nomura Asia Investment (Singapore) Pte. Ltd ("NAIS"), the major shareholder of the Company holding shares of the Company in the total number of 1,844,659,931 ordinary shares representing 85.78 percent of the total issued shares of the Company. The letter proposed delisting of the Company's securities through a tender offer by NAIS of the remaining shares, which are not owned by NAIS, at the number of 305,809,069 ordinary shares representing 14.22 percent of the total issued shares of the Company with an offering price of Baht 2.51 per share on the ground that Nomura Group (including Nomura Holdings, Inc. ("Nomura HD"), the parent company of NAIS and the subsidiaries and affiliates of Nomura HD) and the Company have built a closer and stronger relationship since the Company became NAIS's subsidiary in 2014 following a tender offer by NAIS. Nomura Group believes that by delisting of the Company's securities and further strengthening of relationships within Nomura group, it will be able to more flexibly implement the Company's business strategy and accelerate decision-making. This will help to provide higher value-added services to the Company's clients.

The Chairman reported to the Meeting to consider the additional details of the delisting of securities of the Company from being securities listed on the SET as follows:

- Enclosure No. 2: Form of Report on Delisting of Shares (F10-6), which was approved by the resolution of the Board of Directors' Meeting held on 3 October 2019, prescribing reasons and facts concerning the delisting of shares of the Company.
- Enclosure No. 3: Opinion of the Independent Directors on the Delisting of the Company's Securities from the SET.
- Enclosure No. 4: Opinion of the Independent Financial Advisor Regarding the Voluntary Delisting of Securities from the Stock Exchange of Thailand and
- Enclosure No. 5: An updated form of report on disclosure of additional information of the Company (Form 56-1) as at June 30, 2019.

The Chairman then invited Miss Julaporn Namchaisiri, Managing Director-Corporate Finance and Mr. Adulpol Charukesnunt, Supervisor from the GTSL, to present an opinion of the independent financial advisor to the delisting of the Company's securities from the SET.

Miss Julaporn Namchaisiri, Managing Director from the GTSL, presented an opinion of the IFA to the Meeting as detailed in the Enclosure No. 4: Opinion of the Independent Financial Advisor Regarding the Voluntary Delisting of Securities from the Stock Exchange of Thailand which could be summarized as follows:

1. Company Background, Business Overview and Financial Highlights

Company Profile

- Capital Nomura Securities Public Company Limited ("CNS" or "the Company") has been established in 1970 to engage in 7 core securities businesses, namely
 - 1) securities brokerage business,
 - 2) derivatives brokerage business,
 - 3) financial advisory business,
 - 4) underwriting business,
 - 5) fixed income trading business,
 - 6) securities borrowing and lending business,
 - 7) selling agent business

The Company's revenue structure for the last 3 years (2016-2018) was as follows; brokerage commission business shared 43 – 55%, fee and service income shared 15- 24% and interest from margin loan shared 19 -23%.

2. Transaction Background

- Nomura Asia Investment (Singapore) Pte. Ltd. ("NAIS" or "the Offeror") is currently the largest shareholder of CNS by holding 1,844,659,931 shares or equivalent to 85.78 percent of the total issued and paid-up shares of CNS.
- On 2nd October 2019, NAIS announced its intention to make a tender offer for the entire securities of CNS and for the delisting of the securities of the Company from the Stock Exchange of Thailand (the "SET").
- The Offer price is THB 2.51 per share and the intended acquiring amount will be 305,809,069 shares, or the remaining 14.22 percent of the total issued and paid-up shares of the Company.
- The meeting of the Board of Directors No. 10/2019 held on 3rd October 2019 resolved to call the EGM to enable the shareholders to vote on the delisting

and has engaged the GTSL as the Company's IFA to provide independent opinion to the shareholders regarding the issue.

3. Valuation Methodologies

IFA considered 6 valuation methodologies in total as follows;

- 1) Book Value Approach (BV)
- 2) Adjusted Book Value Approach (ABV)
- 3) Volume Weighted Average Market Value Approach
- 4) Price-to-Book Ratio Approach (P/BV Ratio)
- 5) Price-to-Earning Ratio Approach (P/E Ratio)
- 6) Dividend Discount Model (DDM)

IFA opined that P/BV Ratio was the most appropriate because this approach is suitable for shares with assets for sale or shares in financial business groups that have highly liquid assets and are subject to similar supervision and regulations, such as banks or securities business. Hence, Price-to-book value approach (P/BV) can reasonably reflect the investors' view and give more stable fair share value than P/E Ratio.

4. Valuation Results

P/BV Ratio gave the Company's value at 2.00 – 2.45 Baht per share, the highest among the Valuation Methodologies as mentioned earlier which gave the Company's value at 0.57 – 2.41 Baht per share but lower than the tender offer price at 2.51 Baht per share.

5. Rationale for Delisting

Nomura Group (including Nomura Holdings, Inc. ("Nomura HD"), the parent company of NAIS and its subsidiaries and affiliates), and CNS have developed a closer and stronger relationship since CNS became NAIS's subsidiary in 2014 following a tender offer by NAIS. Nomura Group decided to have NAIS increase its proportion of shares in the Company and delist the securities of the Company from the SET in order to further develop the relationship between the companies in Nomura Group to be closer and stronger. This will help to provide more flexible implementation of its business strategy, accelerate decision-making as well as help provide higher value-added services to its clients.

The request to delist was appropriate because of the following reasons;

- 1) Inability to fulfill the qualification to maintain the status of listed company
The Company has not maintained the qualifications required to maintain the status of a listed company in accordance with the regulation of the SET, which requires the listed company to maintain not less than 150 minority shareholders, whose shares in aggregate shall not be less than 15 percent of total issued and paid-up shares of the listed company.

2) Inability to monitor and counterbalance the major shareholder

NAIS, the major shareholder of the Company holding the Company's shares equivalent to 85.78 percent of total issued and paid-up share of the Company shows that NAIS has absolute control in the Company.

3) More flexibility for business administration

Delisting from being a listed company in the SET will allow the Board of Directors and/or the management of the Company to administrate the business with greater flexibility as there is no need for the Company to disclose information according to rules and regulations of the SEC and the SET regarding the roles and responsibilities of the listed companies after the delisting of the securities. This will help speed up the decision-making process on investment or expansion of investment, as well as, the consideration of entering into transactions, which will increase the competitive advantages of the Company.

4) No need to raise fund from the SET

The Company has no need to raise capital via the SET. Over the past years, the Company has effectively managed liquidity in the business operation by borrowing money from financial institutions to be used for working capital. However, if there is a requirement to raise capital in the future, Nomura's group will be able to support the Company.

5) Illiquid stock

According to the past 360 days trading data of the Company, from the date of the disclosure of the resolution of the Board of Directors regarding the request to delist the securities, the daily trading volume was low, representing an average percentage of 0.003 of the total paid-up shares of the Company or equal to 0.023 percent of the number of shares of the minority shareholders (Free Float).

6) Reduction of costs and fees associated with maintaining a listed company status

6. Impact of Delisting

6.1 Impact on the Company

1. Inability to raise fund through Stock Exchange

Subsequent to the delisting from being the listed company in the SET, the Company will no longer be able to raise capital via the SET or the offering of securities to the public for the expansion of investments or the use of fund raising as working capital of the Company. However, if the Company has necessity to raise additional capital in the future, the Company may request financial support from Nomura Group.

2. More flexibility for business administration

As the Company no longer being required to disclose information in accordance with the regulations of the SEC and the SET regarding the

roles and responsibilities of the listed companies after the delisting of the securities, the Company will be able to administrate the business with greater flexibility since the Company can decide to enter into transactions faster and also increase the competitive advantages of the Company. Nonetheless, the Company is liable to follow the rule and regulation of the SET and the SEC as a securities company.

3. Less information distributed to investors and outsiders after delisting

Investors and/or third parties will recognize and receive the Company's information less than when the Company is being a listed company. However, it will not affect the core business of the Company significantly as the Company will continue to engage in the securities and investment banking business, in which the Company's services are well accepted by the market and well known to people in general. In addition, the Company still has marketing and public relations plans to encourage consumers to receive the Company's information continuously.

4. Reduced costs and fees associated with maintaining a listed company status

In the past, the Company has to pay expenses associated with maintaining the status as a listed company in the SET. Most of expenses came from annual fees, fine from inability to fulfill the qualification to maintain the status of listed company, expenses of the arrangement of shareholders' meetings and expenses of disclosure of information to the shareholders. After the delisting, these expenses will be reduced.

6.2 Impact on Shareholders

1. Lack of liquidity in trading of securities

The Company's shares will no longer be traded on the SET, which is the major secondary market. Therefore, the shareholders who wish to trade the Company's shares will not be able to trade flexibly. Moreover, the awareness about the adjustment of share prices or liquidity of the Company's shares will no longer be extensively prevalent.

2. Loss of tax benefits

In case that the Company is still a listed company in the SET, the capital gains from the sales of shares in the stock market will be considered as tax-exempt income for individual. However, subsequent to the delisting from being the listed company in the SET, individual shareholders will no longer receive tax benefits for the exemption of capital gains tax. Individual shareholders who trade the Company's shares after the Company's securities are delisted from being the listed securities in the SET have to include capital gains from the sales of shares in the calculation for filing personal income tax at progressive rate.

3. The change in form of return on investment in securities

The opportunity for securities holders to receive a capital gain from trading securities will be limited because there is no secondary market for securities trading. However, shareholders will still receive returns in the form of dividends if they are announced after the Company's shares are delisted from being the listed securities.

4. Shareholders will receive less information

Subsequent to the delisting from being the listed company in the SET, the Company will no longer have obligations to disclose information in accordance with the Notification of the SET in a topic of practices regarding the disclosure of information and other acts of listed company or the disclosure of any information applicable to listed company which impacts directly to the shareholders of the Company in terms of limited access to the Company's news and information.

However, the Company is still required to disclose and submit information as the Company is still a public company in accordance with the Public Limited Companies Act B.E. 2535. This will include data and information to be disclosed to the shareholders' meeting of the Company, annual report. Further, if the minority shareholders wish to know about the company affidavit, list of shareholders, and the annual financial statements of the Company, they can make a copy of the Company's information at the Ministry of Commerce.

5. Inability to exercise the checks and balances on the management

NAIS, which is the major shareholder of the Company, held the Company's shares of 1,844,659,931 shares, or equivalent to 85.78 percent of total issued and paid-up share of the Company shows that NAIS has an absolute control in the Company. Moreover, subsequent to the delisting from being the listed securities, NAIS wishes to acquire additional shares of the Company. If the minority shareholders of the Company sell additional shares to NAIS until NAIS has a shareholding in the Company of more than 90 percent of total issued and paid-up shares of the Company, NAIS will be able to set policies regarding the business administration, such as the adjustment of the structure of the business operation of the Company and its subsidiaries, and the dividend policy while minority shareholders cannot gather votes sufficient for the checks and balances on the management.

7. IFA's Opinion

The IFA is of the opinion that shareholders should approve the delisting of the Company's securities from the SET and that the tender offer price of THB 2.51 per share is appropriate.

The Chairman thanked Miss Julaporn Namchaisiri, IFA, and gave an opportunity to the shareholders to ask questions on the opinion of the independent financial advisor regarding the delisting of the Company's securities from the SET.

10 / 21

The shareholders were given an opportunity to ask questions.

- Questions Mr. Anu Wongsarakit, the shareholder attending the Meeting, asked the following question:

The resolution of this agenda requires approval from votes no less than three-fourths of the total issued shares of the Company OR of the number of shares held by shareholders attending the meeting.

- Answers The Chairman assigned Mr. Theppachol Kosol, a legal advisor from Baker Mckenzie Limited to clarify.

Mr. Theppachol Kosol, a legal advisor from Baker Mckenzie Limited, informed that all shareholders can equally vote for the delisting of the Company's securities from the SET, therefore the vote count will be based from the total issued paid up shares of the Company.

- Questions Mr. Anu Wongsarakit, the shareholder attending the Meeting, asked the following question:

Whether or not the tender offer price of 2.51 Baht per share from book value was appropriate. Since after the tender offer in Y2014, the Company received extraordinary gain from selling of general investment in Y2017 more than Baht 100 million and currently the Company has an allowance for doubtful account of more than Baht 100 million, which may become collectable. Did the IFA take into account these factors when considering the appropriateness of the tender offer price?

- Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that the Company have indeed received extraordinary gain from the selling of general investment, but since all of these have already been concluded and were non-listed securities, they were not taken into account for fair value consideration. In any case, P/BV Ratio would reflect the current valuation of the Company.

- Question Mr. Wiwat Khusakul, the proxy holder attending the Meeting asked the following question:

From the IFA opinion that; delisting from the stock exchange will help reduce annual costs, please provide detail regarding these costs and the proportion reduced compared to overall costs.

- Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that if the Company could be delisted, the total expense would be lower around Baht 2 million while the total expense could be found from the Company's financial statement.

- Question Mr. Sutheera Ariyawanakit, shareholders attending the Meeting asked the followings.
 1. More details as to whether the IFA has studied the tender offer of other companies in the same sector for comparison such as the case where Thanachart Capital Public Company Limited sold some shares to Scotia Bank or in the case where Srisawad Finance Public Company Limited bought Bangkok First Investment and Trust Public Company Limited or TMB Bank Public Company Limited bought Thanachart Capital Public Company Limited?
 2. Regarding IFA's view about the lower expense as a consequence from delisting, it should be assumed that the Company's performance should be better therefore how should be the trend for dividend?

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained as follows;

1. IFA had already studied the tender offer of other companies in the same sector, however, those tender offers in the same sector were conducted long time ago, when the social and economic status were in a different condition, therefore they were not comparable. In addition, those companies as mentioned by the Shareholder did not operate the securities business. In this regard, in the process of the IFA's work, the IFA could not ask in depth information from tender offerors in the past but would consider from the letter of intent to assess the impact to the company and the shareholders according to the SEC's rules, therefore the information was insufficient to answer the question.
 2. IFA opined that the most appropriate methodology for this valuation was Price to Book Value Ratio Approach which was popular for financial industry. However, the IFA has also considered with other methodologies for the period of last 10 years as mentioned earlier and found that for any methodology, the valuation of the company resulted in the tender offer price of not exceeding 2.51 Baht per share which could reflect the current situation of securities business. The dividend would depend on the Company's performance in the future.
- Question Miss Voranuch Kunavipakorn, shareholders attending the Meeting asked for more clarification on the wording in the Notice of Summoning to attend the Extraordinary General Meeting of Shareholders No.1/2562 page 3, Agenda 2 as below.

"In this regard, NAIS may adjust the tender offer price in case that (1) the Company distributes dividend to its shareholders, (2) the Company changes its par value which results in an increase or decrease in the number of shares of the Company, (3) the Company

grants the rights to purchase the newly issued shares for right offering or issuance of the transferable subscription rights for a capital increase to the existing shareholders in proportion to the existing number of shares held by them in accordance with Clause 40 of the Notification of the Capital Market Supervisory Board No. TorChor. 12/2554 Re: Rules, Conditions and Procedures for the Acquisition of Securities for Business Takeovers (as amended) (the "Notification No. TorChor. 12/2554"). In addition, such tender offer price must not be lower than the highest calculated price based on the procedure for determination of the tender offer price for delisting of securities pursuant to the Notification No. TorChor. 12/2554."

Answers The Chairman assigned Mr. Theppachol Kosol, a legal advisor from Baker Mckenzie Limited to clarify.

Mr. Theppachol Kosol, the legal advisor from Baker Mckenzie Limited, informed the Meeting that the said content provided the information regarding the conditions to shareholders that if there is an event in the future such as the payment of dividend to the shareholders, the change of the share par value, the right offering etc, the tender offeror may consider to adjust the price to reflect the impact from such conditions in accordance with the relevant standards. This was additional information for shareholders but at the moment, the events as mentioned has not yet occurred.

• Question Mr. Sakchai Sakulsrimontri, shareholders attending the Meeting asked the followings.

1. One of reasons mentioned by IFA was that the Company was unable to fulfill the qualifications to maintain the status of listed company regarding the qualifications required to maintain the status of a listed company in accordance with the regulation of the SET, which requires the listed company to maintain not less than 150 minority shareholders, whose shares in aggregate shall not be less than 15 percent of total issued and paid-up shares of the listed company. He would like to know why the Company has not considered to correct it.
2. He would like to know the benefits for the delisting of the Company's securities from the SET.

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, the IFA, explained as follows;

- 1 The inability to fulfill the qualification to maintain the status of listed company regarding the qualifications required to maintain the status of a listed company in accordance with the regulation of the SET, which requires the listed company to maintain not less than 150 minority shareholders, whose shares in aggregate shall not be less than 15 percent of total issued and paid-up shares of the listed company is the fact and the major shareholder would like to buy

more share stake. The Company could then only inform to the major shareholder of the Company to acknowledge the inability to fulfill the qualification to maintain the status of listed company according to SET. The questions as to whether the major shareholder is would be willing to sell shares to solve such issue should be raised to the major shareholder.

2. The benefit of the delisting of the Company's securities from the SET is more flexibility to do business which may result in more opportunity to do business and to make more profit.

Mr. Adulpol Charukesnunt, Supervisor from Grant Thornton Services Limited (the GTSL), added that:

The IFA created the financial forecast and assumption according to the 6 methodologies based on historical records of the Company on the assumption that the business of the Company would continue its steady growth. Furthermore, in conducting the sensitivity analysis, there has been the adjustment of the increase/decrease of the market share which resulted in the Company share price according to the Dividend Discount Model (DDM) at the range of 0.51-1.61 Baht per share which is around 0.90-1.94 Baht per share lower than the tender offer price.

Miss Julaporn Namchaisiri, the IFA, added that the prospects for the securities business for the next 2 years could not be regarded as optimistic, due to challenges from multiple aspect, such as the business trend in the foreign countries including Computer Trading, Zero Commission which is the negative trend that could have an impact to the Company's business. Nonetheless, in forecasting the assumption, the IFA has not designated that that the Company would experience growth or loss.

Mr. Sirivat Voravetvuthikun, a proxy holder, shared his view that the meeting was to consider the delisting and IFA's role is to protect minority shareholders. The Chairman had already confirmed that there was no attempt to pressure the IFA in the course of its performance and that the final decision rest upon the shareholders' discretion. Since the meeting has already spent enough time with the IFA, the shareholder should then spend time to inquire for information from the Independent Directors and Board of Executive Directors therefore he proposed to end the session with IFA.

- Question Mrs. Sirinun Sansanakom, shareholders attending the Meeting asked the following questions:

Why has the IFA not appraised the value of the assets on the part of lands, premises and equipment of Baht 85.53 million or 0.99% of total asset as at June 30, 2019?

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that the reason why assets price of the lands, buildings, and equipment were not included in the valuation was because most permanent assets were assets under lease contract and their proportion compared to total assets was not significant enough to impact the book value since the value of most assets has been reflected in market value.

- Question Mr. Watshira Tayanaraporn, the shareholder attending the Meeting, asked the following questions:

Has the IFA included value of all licenses that held by the Company in the fair value consideration?

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that all licenses were not taken into account for valuation appraisal because CNS did not purchase those licenses and the value of those license would have been reflected in the profitability of the Company according to the Dividend Discount Model (DDM) valuation methodology. As for other valuation methodologies, the value of those licenses were neither taken into account.

- Question Mr. Sutheera Ariyawanakit, shareholders attending the Meeting asked that the tender offer price at 2.51 Baht per share would be higher / lower than the price at payment date.

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that the tender offer price was determined by tender offeror. The Shareholders should focus in the tender offer price. The IFA only assessed whether the tender offer price offered by the tender offeror was appropriate or not. The valuation by using P/BV Ratio considered the price from the period of the last 360 days compared to the prices of 6 other companies to reduce bias since the Company's share had low liquidity. The question as to whether or not the tender offer price at the payment date would be higher or lower, should be raised to the tender offeror.

- Question Mr. Chalermphan Srichanachaichok, shareholders attending the Meeting asked that the tender offer price at 2.51 Baht per share compared to the book value at end of 3rd quarter at 2.48 baht per share had difference of 0.03 Baht per share. Such difference was too low from his view especially when compared to the historical dividend payment record at the lowest at 0.08 Baht per share. What was the Company's view on this?

Answers The Chairman assigned Miss Julaporn Namchaisiri, IFA, to clarify.

Miss Julaporn Namchaisiri, IFA, explained that such comment was the future event then she would not explain.

The Chairman further informed the Meeting that the independent directors of the Company consisting of (1) Associate Professor Dr. Danuja Kunpanitchakit (2) Col. Ruangsub Kovindha (3) Mr. Prasert Virasathienpornkul and (4) Dr. Prasit Kanchanasakdichai, had considered various information relevant to the delisting of the Company's securities from the SET, which include the opinion of the GTSL, who acts as the Independent Financial Advisor and had the opinion as the Enclosure No. 3.

The Chairman then invited Associate Professor Dr. Danuja Kunpanitchakit, the Independent Director and the Chairperson of the Audit Committee to report an opinion of the Independent Directors on the delisting of the Company's securities from the SET.

Associate Professor Dr. Danuja Kunpanitchakit, the Independent Director and the Chairperson of the Audit Committee reported an opinion of the Independent Directors which can be summarized as follows:

The Independent Directors' Meeting had resolved to propose the Meeting the opinion of the Independent Directors on the delisting of the Company's securities from the SET as follows:

The meeting of Independent Directors considered as a representative of shareholders and the Company in a big picture. For the tender offeror, NAIS, which is the major shareholder of the Company and the shares of which is held by Nomura Holdings, Inc. ("Nomura HD"). Considering the strategy of Nomura HD as mentioned in the letter from NAIS of the intention to delist the Company's securities from the SET together with the Opinion of the Independent Financial Advisor regarding the Voluntary Delisting of Securities from the Stock Exchange of Thailand, it could be seen that Nomura HD started its shareholding in the Company since 2014 with its clear business direction at the shareholding proportion of around 85%. This represented that NAIS is able to control and manage all significant matters of the business. It could thus be foreseen that the intention of Nomura HD was to hold 100% of the Company's shares.

She further explained that from her working experiences, Japanese companies will have Japanese controlling pattern which might be partially overlap with those of the SET and SEC. In her opinion, the request for the delisting of the Company's securities from the SET this time did not imply that the management direction of the Company would be worsen in the future. On the other hand, this might result in the better controlling system in accordance with those of Nomura HD. In addition, if considering from Nomura HD's perspective, this could also result in a better growth. Therefore, the Independent Directors opined that the delisting of the Company's securities from the SET this time is appropriate in terms of Nomura HD's strategy.

Considering from minority shareholders' perspective, under the condition of Nomura HD's intention, if the delisting of the Company's securities from the SET is successful, a minority shareholder who does not accept the tender offer would get dividend subject to the Company's performance but could not sell the shares in SET and would have no reference price in the future.

Mr. Prasert Virasathienpornkul, Independent Director and Audit Committee member, added that the Company share price as of the meeting date was at 2.4 Baht per share while the tender offer price is 2.51 Baht per share. However, considering the historical price of the Company's shares for last several months were in the range of 1.50 -1.60 Baht

per share, it could demonstrate that the share price as of the date was higher due to the tender offer.

The meeting of Independent Directors considered the valuation of the Company's share according to each methodology done by the IFA and it was found that this tender offer price was higher than the price derived from the valuation by all methodologies. In addition, it was important to consider the value of share price in a normal condition without the tender offer of around 1.50 - 1.60 Baht per share together with the dividend, when compared to the tender offer price of 2.51 Baht per share to support the decision making on the tender offer. The Chairman thanked the Independent Directors and additionally informed the shareholders that to vote to whether approve the delisting of the Company's securities from the SET, the shareholders should analyze the Opinion of the Independent Financial Advisor and information from various sources which shareholder viewed as deem reliability to support the decision. The final decision rested with the shareholders' careful discretion.

The shareholders were given an opportunity to ask questions to Independent Directors regarding the delisting of the Company's securities from the SET.

- Question Mrs. Sirinan Sansanakom, shareholders attending the Meeting asked that is there any chance that the tender offeror would increase the tender offer price?

Answers The Chairman advised that at present, the tender offer price by NAIS is currently 2.51 Baht per share.

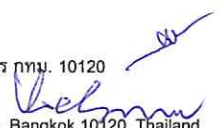

The Chairman invited Mr. Yuji Hibino, Director, Non-Executive Director and Non-Independent Director, to share more to the Meeting.

Mr. Yuji Hibino, Director, Non-Executive Director and Non-Independent Director reported that at present, there was no information for the tender offer price adjustment.

- Questions Mr. Anu Wongsarakit, the shareholder attending the Meeting, asked about the timeline for this tender offer and it will be in the same period as the dividend payment.

Answers The Chairman assigned Mr. Theppachol Kosol, a legal advisor from Baker Mckenzie Limited to clarify.

Mr. Theppachol Kosol, a legal advisor from Baker Mckenzie Limited informed that in the case where the shareholders' meeting of the Company resolves to approve the delisting of securities of the Company from being securities listed on the SET, the Company is required to submit an application for delisting in a Form of Report on Delisting of Shares (F10-7) to the SET. The Board of Governors of the SET will grant the approval of delisting within 30 days after the Company submits complete and accurate Application for Delisting of Shares (F10-7) to the Board of Governors of the SET. NAIS will then be the tender offeror of the remaining securities of the Company, which are not owned by NAIS, for the purpose of the delisting of securities pursuant to the relevant notifications of the Capital Market Supervisory

Board and other relevant regulations, at the mentioned offering price of Baht 2.51 per share. The tender offer shall normally be proceeded for 25 working days but due to this is to delist securities of the Company from being securities listed on the SET, the tender offer period is requested to be proceeded for 45 days which might be closed to the dividend payment period in March depending on the announcement period of approval of the delisting of securities of the Company from being securities listed on the SET and of schedule for the annual general meeting of shareholder.

The Chairman informed the meeting that the Board of Directors has considered and resolved to propose to the shareholders meeting to approve the delisting of the Company's securities from the SET in accordance with the fact and reason mentioned earlier. In addition, in order to comply with the procedures of the regulations of the SET Re: Delisting of Listed Securities B.E. 2542 (1999) and other relevant rules, the Board of Directors considered and resolved to also propose the Shareholders' Meeting to approve the delegation of the authority to any 2 of the 4 Executive Directors as follows;

4. to seek permission from or submit documents to the SET, the SEC, or other relevant authorities in connection with delisting of securities
5. to do any acts necessary to comply with the SET's and the SEC's requirements in order to complete the delisting of securities.

In this connection, in the case where the shareholders' meeting of the Company resolves to approve the delisting of securities of the Company from being securities listed on the SET with the vote not less than three-fourths of the total issued shares of the Company, and also no objections from shareholders holding shares, in aggregate, exceeding 10 percent of the total issued shares of the Company, the Company is required to submit an application for delisting in a Form of Report on Delisting of Shares (F10-7) to the SET, and upon the event that the delisting of securities of the Company from being securities listed on the SET has been approved and/or waived from the related organizations, including the SET, NAIS will be the tender offeror of the remaining securities of the Company, which are not owned by NAIS, for the purpose of the delisting of securities pursuant to the relevant notifications of the Capital Market Supervisory Board and other relevant regulations, at the mentioned tender offer price of Baht 2.51 per share.
